

110TH CONGRESS
1ST SESSION

H. R. 3902

To amend part D of title V of the Elementary and Secondary Education Act of 1965 to provide grants for the renovation of schools.

IN THE HOUSE OF REPRESENTATIVES

OCTOBER 18, 2007

Mr. LOEBSACK (for himself, Mr. HARE, and Mr. SARBANES) introduced the following bill; which was referred to the Committee on Education and Labor

A BILL

To amend part D of title V of the Elementary and Secondary Education Act of 1965 to provide grants for the renovation of schools.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Public School Repair
5 and Renovation Act of 2007”.

6 **SEC. 2. FINDINGS.**

7 Congress finds the following:

8 (1) Providing safe, healthy, and up-to-date pub-
9 lic elementary and secondary school facilities is a
10 crucial component of improving student academic

1 performance and retaining high-quality, committed
2 educators.

3 (2) The 2005 Infrastructure Report Card com-
4 piled by the American Society of Civil Engineers
5 gives public schools a D grade.

6 (3) The General Accounting Office, in 1995, re-
7 ported that the Nation's elementary and secondary
8 schools require approximately \$112,000,000,000 to
9 repair or upgrade facilities.

10 (4) Since 1995, public elementary and sec-
11 ondary school enrollment increased by more than
12 3,000,000 students. Since 1995, more than half of
13 the construction funds for such schools were spent
14 on new school construction, although repair and ren-
15 ovation of existing schools are critically needed, par-
16 ticularly in school districts with disadvantaged popu-
17 lations, where local educational agencies are working
18 to close achievement gaps between subgroups of stu-
19 dents.

20 (5) A report issued by the National Education
21 Association in 2000 estimated that
22 \$322,000,000,000 was needed to repair and upgrade
23 the Nation's elementary and secondary schools, in-
24 cluding construction of new schools.

1 (6) The Department of Education documented
2 in 1998 that the average age of a public elementary
3 or secondary school building is estimated at 42 years
4 old, an age when schools tend to deteriorate.

5 (7) School districts spent more than
6 \$304,000,000,000 (in 2005 dollars) for public school
7 construction contracts from 1995 through 2004, ac-
8 cording to data collected by McGraw-Hill Construc-
9 tion.

10 (8) According to a 2006 report by the Building
11 Educational Success Together (referred to in this
12 section as “BEST”) coalition, the per-student in-
13 vestment made in the most affluent school districts
14 to repair or construct schools was nearly double the
15 amount of the per-student investment made in the
16 most disadvantaged school districts.

17 (9) The BEST report also found that students
18 in school districts with predominantly Caucasian en-
19 rollment benefitted from about \$2,000 more per stu-
20 dent in school repair and construction spending than
21 their peers living in schools districts with predomi-
22 nantly minority enrollment.

23 (10) Since 1998, the Iowa Demonstration Con-
24 struction Grant Program has provided \$116,000,000
25 in Federal assistance to over 260 school districts for

1 school repair and construction. That Federal invest-
 2 ment in school repair and construction has gen-
 3 erated millions of dollars of additional local funding
 4 through a match required by the State government.

5 **SEC. 3. GRANTS FOR SCHOOL RENOVATION.**

6 Part D of title V of the Elementary and Secondary
 7 Education Act of 1965 (20 U.S.C. 7241 et seq.) is amend-
 8 ed by adding at the end the following:
